

Dear Cannabis Business Owners and Operators,

The NCRMA prides itself on being an excellent source for continued education for professionals in all areas of the Cannabis Industry. In the next month, members of our mailing list, former free trial members, and current contributing members will all be able to participate in two new webinars from our service partners as well as our first guest webinar. We will send gotomeeting invitations and full descriptions for each of the three webinars the day before the webinar airs so you can interact with our experts first-hand.

- Thursday, May 3rd at 5 pm ET, 2 PT: NCRMA Attorney Joe Denneler on the ***Legal Risks Associated with Using Contractors and Vendors as part of the Production and Sale of Adult-Use Cannabis Products***
- Wednesday, May 9th at 5pm ET, 2 PT: NCRMA Partner Sativa Science Club on the ***Return on Investment Cannabis Retailers will have with Certified Budtender Training***
- Monday, May 14th at 11am ET, 8 PT: Morgan Abraham of Fuss & O' Neill on the ***Energy Mandate for Massachusetts Cannabis Operators***

Reminder that all of our webinars are live and interactive. We compile the questions in the chat section of the gotomeeting and have a full Q&A with the service expert at the end of the presentation. These webinars are recorded, matched with the source Powerpoint, and posted in our Member Resource Library for contributing members to utilize on their own time.

Contributing members should also look forward to an Utility Consulting Update from Executive Board Member Laura Schepis, as well as a Cyber Security Update, a Legislative Affairs Update, and Gershon Spengler's May Executive Director Letter.

Our Member Resource Library is growing every day. As you can see with the above guest webinar, we encourage businesses with a resource or valuable message to share, to become contributing members to the association and post their content to our website for the further education of our membership base. The cost to do so is included in the already very affordable membership rate of \$250 a year or \$30 a month.

While many of you receiving this email may not have joined the NCRMA already, we invite you to do so and take advantage of a wealth of risk management tools (See comprehensive list below). The sign-up process is straightforward and can be done online or by contacting our Membership Coordinator, Charlie Hunter, at the following:
